

## Fabrinet Announces Fourth Quarter and Fiscal Year 2018 Financial Results

August 20, 2018

BANGKOK--(BUSINESS WIRE)--Aug. 20, 2018-- Fabrinet (NYSE: FN), a leading provider of advanced optical packaging and precision optical, electro-mechanical and electronic manufacturing services to original equipment manufacturers of complex products, today announced its financial results for its fourth quarter and fiscal year ended June 29, 2018.

Seamus Grady, Chief Executive Officer of Fabrinet, said, "Our financial results for the fourth quarter exceeded our guidance for revenue and profitability. Our sequential revenue growth was driven by modest growth from optical communications products, and strong growth from non-optical communications products, with a particularly notable performance in the industrial laser and automotive markets. We are encouraged by the broadly improving demand dynamics we see and are optimistic that we will see continued sequential growth in the first quarter of fiscal year 2019 as we expand our leadership as a manufacturer of complex products."

Toh-Seng Ng, Chief Financial Officer of Fabrinet, added, "On a personal note, at my request, our board of directors has initiated a CFO succession plan. We have retained an executive search firm to assist in identifying and evaluating candidates, and there is no set timeline for this process."

### Fourth Quarter Fiscal Year 2018 Financial Highlights

## Forward-Looking Statements

### "Safe Harbor" Statement Under U.S. Private Securities Litigation Reform Act of 1995

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include: (1) statements regarding improving demand and our ability to achieve sequential growth in the first quarter of fiscal year 2019, as well as our ability to expand our leadership as a manufacturer of complex products; and (2) all of the statements under the "Business Outlook" section regarding our expected revenue, GAAP and non-GAAP net income per share, and fully diluted shares outstanding for the first quarter of fiscal year 2019. These forward-looking statements involve risks and uncertainties, and actual results could vary materially from these forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to: less customer demand for our products and services than forecasted; less growth in the optical communications, industrial lasers and sensors markets than we forecast; difficulties expanding into additional markets, such as the semiconductor processing, biotechnology, metrology and materials processing markets; increased competition in the optical manufacturing services markets; difficulties in delivering products and services that compete effectively from a price and performance perspective; our reliance on a small number of customers and suppliers; difficulties in managing our operating costs; difficulties in managing and operating our business across multiple countries (including Thailand, the People's Republic of China, the U.S. and the U.K.); and other important factors as described in reports and documents we file from time to time with the Securities and Exchange Commission (SEC), including the factors described under the section captioned "Risk Factors" in our Quarterly Report on Form 10-Q, filed on May 8, 2018. We disclaim any obligation to update information contained in these forward-looking statements whether as a result of new information, future events, or otherwise.

## Use of Non-GAAP Financials

We refer to the non-GAAP financial measures cited above in making operating decisions because they provide meaningful supplemental information regarding our ongoing operational performance. Non-GAAP net income excludes: share-based compensation expenses; depreciation of fair value uplift; severance payments; expenses related to our CEO search; debt administration expense; amortization of intangibles; business combination expenses; loss (gain) on foreign currency contracts; amortization of debt issuance costs; and restructuring charges. We have excluded these items in order to enhance investors' understanding of our underlying operations. The use of these non-GAAP financial measures has material limitations because they should not be used to evaluate our company without reference to their corresponding GAAP financial measures. As such, we compensate for these material limitations by using these non-GAAP financial measures in conjunction with GAAP financial measures.

These non-GAAP financial measures are used to: (1) measure company performance against historical results, (2) facilitate comparisons to our competitors' operating results, and (3) allow greater transparency with respect to information used by management in making financial and operational decisions. In addition, these non-GAAP financial measures are used to measure company performance for the purposes of determining employee incentive plan compensation.
