PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus or incorporated herein by reference. This summary is not complete and does not contain all of the information that you should consider before deciding to invest in our ordinary shares. You should carefully read this prospectus, including our financial statements, the related notes and other information about us incorporated by reference into this prospectus, and the registration statement of which this prospectus is a part in their entirety before investing in our ordinary shares, especially the risks of investing in our ordinary shares, which we discuss under “Risk Factors.”

Overview

We provide precision optical, electro-mechanical and electronic manufacturing services to original equipment manufacturers (OEMs) of complex products such as optical communication components, modules and sub-systems, industrial lasers and sensors. We offer a broad range of advanced optical and electro-mechanical capabilities across the entire manufacturing process, including process design and engineering, supply chain management, manufacturing, final assembly and test. We focus primarily on low-volume production of a wide variety of high complexity products, which we refer to as “low-volume, high-mix”. Based on our experience with, and feedback from, customers, we believe we are a global leader in providing these services to the optical communications, industrial lasers, and sensors markets.

Our customer base includes companies in complex industries that require advanced precision manufacturing capabilities, such as optical communications, industrial lasers and sensors. Our customers in these industries support a growing number of end-markets, including semiconductor processing, biotechnology, metrology, material processing, automotive and medical devices. Our revenues from lasers, sensors and other markets as a percentage of total revenues have increased from 18.3% for the year ended June 25, 2010 (“fiscal 2010”) to 20.9% for the year ended June 24, 2011 (“fiscal 2011”) to 29.2% for the nine months ended March 30, 2012, while our revenues from optical communications products as a percentage of total revenues have decreased from 81.7% for fiscal 2010 to 79.1% for fiscal 2011 to 70.8% for the nine months ended March 30, 2012.

In many cases, we are the sole outsourced manufacturing partner used by our customers for the products that we produce for them. The products that we manufacture for our OEM customers include:

- optical communications devices, such as:
 - selective switching products, such as reconfigurable optical add-drop modules (ROADMs), and optical amplifiers, modulators and other optical components and modules that collectively enable network managers to route signals through fiber traffic at various wavelengths and over various distances;
 - tunable transponders and transceivers that eliminate, at a significant cost savings, the need to stock individual fixed wavelength transponders and transceivers used in voice and data communications networks; and
 - active optical cables providing high-speed interconnect capabilities for data centers and computing clusters, as well as Infiniband, Ethernet, fiber channel and optical backplane connectivity;
- solid state, diode-pumped, gas and fiber lasers (collectively referred to as “industrial lasers”) used across a broad array of industries, including semiconductor processing (wafer inspection, wafer dicing, wafer scribing), biotechnology (DNA sequencing, flow cytometry, hematology, antibody detection), metrology (instrumentation, calibration, inspection), and material processing (photo processing, textile cutting, annealing, marking, engraving); and
- sensors, including anesthesia gas monitors that are used in medical equipment, differential pressure, fuel and other sensors that are used in automobiles, and measurement and positioning sensors that are used in laser meters and level meters for the construction and surveying industries.

We also design and fabricate application-specific crystals, prisms, mirrors, laser components and substrates (collectively referred to as “customized optics”) and other custom and standard borosilicate, clear fused quartz, and synthetic fused silica glass products (collectively referred to as “customized glass”). We incorporate our customized optics and glass into many of the products we manufacture for our OEM customers, and we also sell customized optics and glass in the merchant market.

We believe we offer differentiated manufacturing services through our optical and electro-mechanical process technologies and our strategic alignment with our customers. Our dedicated process and design engineers, who have a deep knowledge in materials sciences and physics, are able to tailor our service offerings to accommodate our customers’ most complex engineering assignments. Our range of capabilities, from the design of customized optics and glass through process engineering and testing of finished assemblies, provides us with a knowledge base that we believe often leads to improvements in our customers’ product development cycles, manufacturing cycle times, quality and reliability, manufacturing yields and end product costs. We offer an efficient, technologically advanced and flexible manufacturing infrastructure designed to enable the scale production of low-volume, high-mix products, as well as high-volume products. We often provide a “factory-within-a-factory”

manufacturing environment to protect our customers' intellectual property by segregating certain key employees and manufacturing space from the resources we use for other customers. We also provide our customers with a customized software platform to monitor all aspects of the manufacturing process, enabling our customers to remotely access our databases to monitor yields, inventory positions, work-in-progress status and vendor quality data. We believe there is no other manufacturing services provider with a similar breadth and depth of optical and electro-mechanical engineering and process technology capabilities that does not directly compete with its customers in their end-markets. As a result, we believe we are more closely aligned and better able to develop long-term relationships with our customers than our competitors.

Thailand Flooding

We suspended production at all of our manufacturing facilities in Thailand from October 17, 2011 through November 14, 2011 because of severe flooding in Thailand. Company personnel, insurance adjusters, professional asset valuation advisors, and forensic equipment experts have completed an initial assessment of the damage to inventory, property and equipment, including consigned inventory and assets held by us on behalf of customers, as well as the impact of business interruption to us. Cumulative flood related losses recognized as of March 30, 2012 amount to \$95.9 million.

The following is a summary of all known costs incurred as a result of this event recognized in the condensed consolidated statements of operations for the three and nine months ended March 30, 2012 (in thousands):

| | <u>Three Months Ended</u> <u>March 30, 2012</u> | <u>Nine Months Ended</u> <u>March 30, 2012</u> |
|---|--|---|
| Loss from written-off owned inventories | \$ 1,094 | \$ 16,612 |
| Loss from written-off leased building improvement | — | 1,431 |
| Loss from written-off owned machinery and equipment | — | 1,098 |
| Loss from written-off investments in lease and prepayment | — | 3,532 |
| Loss from consigned inventories | 1,064 | 11,748 |
| Loss from consigned machinery and equipment | 48,450 | 48,450 |
| Estimated restoration cost of leased building | — | 1,000 |
| Payroll and other expenses | 2,421 | 7,328 |
| Flood protection, salvage and increased expenses | 2,594 | 4,689 |
| Total | <u>\$ 55,623</u> | <u>\$ 95,888</u> |

Prior to December 31, 2011, we maintained insurance coverage providing for reimbursement for losses resulting from certain perils, including flood damage, subject to specified exclusions and limitations such as coinsurance, facilities location sub-limits and other policy limitations and covenants. As of June 8, 2012, we had submitted claims for business interruption losses incurred during the three months ended December 30, 2011 and March 30, 2012. We expect to submit additional business interruption claims for the fourth quarter of fiscal 2012 and the first quarter of fiscal 2013. On March 31, 2012, we filed a claim for inventory losses and on April 19, 2012 we filed a claim for owned and consigned equipment. On April 5, 2012 and May 18, 2012, we submitted our building and property claims for losses at Pinehurst and Chokchai, respectively. On June 21, 2012, we received an offer to settle the building and property claim for losses at our Pinehurst facility in the amount of 2,600,842 Thai Baht (approximately \$0.1 million). With the exception of the Pinehurst building and property claim, the insurers have not yet provided an indication of their analysis of our claims or the amounts they believe that we should recover under our policies.

Based on information that we have at this time, we believe that we will ultimately recover a majority of our losses. However, the aggregate amount that we will ultimately recover for our losses may be materially reduced due to a number of exclusions and limitations in our policies (such as coinsurance, facilities location sub-limits, and other policy limitations and covenants). We believe, however, that although the difference between our aggregate claims and our insurance recoveries may ultimately be material, this will not materially and adversely affect our financial condition or results of operations. We continue to have discussions with our customers regarding their assessments of the damage to the consigned inventory and assets that were held by us, and damaged by the flooding at our Chokchai facility. In some cases, there may be material differences between our assessments and our customers' assessments. We continue to review these differences with our customers and, depending on the outcome of these discussions, we may incur additional costs and expenses in connection with our customers' recovery efforts.

Because our insurance policies for calendar year 2011 expired on December 31, 2011, we procured new insurance policies on January 1, 2012. Our current property and casualty insurance, effective January 1, 2012, covers loss or damage to our property and third-party property over which we have custody and control, as well as losses associated with business interruption. We maintain approximately \$118 million in coverage for equipment across all of our manufacturing campuses in Thailand and another approximately \$135 million in aggregate coverage for inventory located at all of our facilities in Thailand. This includes flood insurance for equipment and inventory with an aggregate limit of \$120 million effective as of March 15, 2012. These amounts include coverage for customer-owned assets that are under our care, custody and control. We also maintain an additional approximately \$60 million in coverage against building damage in Thailand and approximately \$124 million in business interruption loss. All such coverage (including our flood insurance) is subject to exclusions and limitations

similar to our pre-January 1, 2012 insurance. Our subsidiary in China also maintains insurance for its property in China, with approximately \$22 million in coverage for equipment, approximately \$8 million in coverage for inventory and approximately \$1 million in coverage for its buildings. Such coverage is also subject to policy exclusions and limitations.

USE OF PROCEEDS

We will not receive any proceeds from the sale of ordinary shares by the selling shareholders. The selling shareholders will pay any underwriting discounts or selling commissions, if any, attributable to the sale of the ordinary shares. We will bear all other costs, fees and expenses incurred in effecting the registration of the ordinary shares covered by this prospectus, including expenses of counsel to the selling shareholders up to \$50,000.

SELLING SHAREHOLDERS

The following table sets forth information regarding the selling shareholders and the number of ordinary shares each selling shareholder is offering under this prospectus.

We have determined beneficial ownership in accordance with U.S. Securities and Exchange Commission rules. The percentage of beneficial ownership is based on 34,466,754 ordinary shares outstanding as of March 30, 2012. In computing the number of ordinary shares beneficially owned by a selling shareholder and the percentage ownership of that selling shareholder, we deemed to be outstanding all ordinary shares subject to options held by that selling shareholder that are currently exercisable or exercisable within 60 days of March 30, 2012. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other selling shareholder. We have prepared this table based on information furnished to us by or on behalf of the selling shareholders. Since the date on which they provided us with the information below, the selling shareholders may have sold, transferred or otherwise disposed of some or all of their ordinary shares in transactions exempt from the registration requirements of the Securities Act.

The ordinary shares may be sold by the selling shareholders, by those persons or entities to whom they transfer, donate, devise, pledge or distribute their ordinary shares or by other successors in interest. The information regarding shares beneficially owned after this offering assumes the sale of all ordinary shares offered by each of the selling shareholders. The selling shareholders may sell less than all of the ordinary shares listed in the table. In addition, the ordinary shares listed below may be sold pursuant to this prospectus or in privately negotiated transactions. Accordingly, we cannot estimate the number of ordinary shares the selling shareholders will sell under this prospectus.

APGF III, an entity affiliated with the private equity firm H&Q Asia Pacific, Ltd., David T. Mitchell, our chief executive officer and chairman of our board of directors, and Shea Ventures, LLC originally acquired the ordinary shares included in this prospectus through a series of private placements of our ordinary shares prior to our initial public offering in June 2010. In connection with our initial public offering, we entered into a registration rights agreement with certain of our shareholders, including the selling shareholders, a form of which was filed with the SEC and is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. This agreement granted these shareholders certain registration rights with respect to the ordinary shares held by them.

PLAN OF DISTRIBUTION

We are registering a total of 11,701,772 ordinary shares on behalf of the selling shareholders pursuant to the terms of a registration rights agreement between us and the selling shareholders. A form of the registration rights agreement was filed with the SEC and is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. The selling shareholders and any of their donees, pledgees, transferees or other successors-in-interest may, from time to time after the date of this prospectus, sell any or all of the ordinary shares offered hereby on any stock exchange, market or trading facility on which the shares are traded or in private transactions. The selling shareholders may decide not to sell any ordinary shares. The selling shareholders may sell all or a portion of the ordinary shares beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or the purchasers of the ordinary shares for whom they may act as agent. In effecting sales, broker-dealers that are engaged by the selling shareholders may arrange for other broker-dealers to participate. The selling shareholders may be deemed to be “underwriters” within the meaning of the Securities Act. Any brokers, dealers or agents who participate in the distribution of the ordinary shares by the selling shareholders may also be deemed to be underwriters, and any profits on the sale of the ordinary shares by them and any discounts, commissions or concessions received by any such brokers, dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act. To our knowledge, the selling shareholders have not entered into any agreement, arrangement or understanding with any particular broker-dealer or market maker with respect to the ordinary shares offered hereby, nor do we know the identity of the broker-dealers or market makers that may participate in the resale of the shares. Because the selling shareholders and any other selling shareholder, broker, dealer or agent may be deemed to be an underwriter within the meaning of the Securities Act, the selling shareholders and any other selling shareholder, broker, dealer or agent may be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of the Securities Act (including, without limitation, Sections 11, 12 and 17 thereof) and Rule 10b-5 under the Exchange Act.

The selling shareholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The ordinary shares may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions, pursuant to one or more of the following methods:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market in accordance with the rules of the NYSE;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- broker-dealers may agree with the selling shareholders to sell a specified number of such shares at a stipulated price per share;
- by pledge to secure debts and other obligations or on foreclosure of a pledge;
- through the settlement of short sales;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The selling shareholders may also sell the ordinary shares covered by this prospectus pursuant to Rule 144 promulgated under the Securities Act, if available, rather than under this prospectus. In addition, the selling shareholders may transfer the ordinary shares by other means not described in this prospectus.

Any broker-dealer participating in such transactions as agent may receive commissions from the selling shareholders (and, if they act as agent for the purchaser of such shares, from such purchaser). The selling shareholders have informed us that any such broker-dealer would receive commissions from the selling shareholders which would not exceed customary brokerage commissions. Broker-dealers may agree with the selling shareholders to sell a specified number of shares at a stipulated price per share, and, to the extent such a broker-dealer is unable to do so acting as agent for the selling shareholders, to purchase as principal any unsold shares at the price required to fulfill the broker-dealer commitment to the selling shareholders. Broker-dealers who acquire shares as principal may thereafter resell such shares from time to time in one or more transactions (which may involve crosses and block transactions and which may involve sales to and through other broker-dealers, including transactions of the nature described above and pursuant to one or more of the methods described above) at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices, and in connection with such resales may pay to or receive from the purchasers of such shares commissions computed as described above. To the extent required under the Securities Act, an amendment to this prospectus or a supplemental prospectus will be filed, disclosing:

- the name of any such broker-dealers;
- the number of shares involved;
- the price at which such shares are to be sold;
- the commission paid or discounts or concessions allowed to such broker-dealers, where applicable;
- that such broker-dealers did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus, as supplemented; and
- other facts material to the transaction.

The selling shareholders have informed us that they do not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the ordinary shares.

Under the securities laws of some states, the ordinary shares may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the ordinary shares may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

Underwriters and purchasers that are deemed underwriters under the Securities Act may engage in transactions that stabilize, maintain or otherwise affect the price of the ordinary shares, including the entry of stabilizing bids or syndicate covering transactions or the imposition of penalty bids. The selling shareholders and any other person participating in the sale or distribution of the ordinary shares will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder (including, without limitation, Regulation M of the Exchange Act), which may restrict certain activities of, and limit the timing of purchases and sales of any of the ordinary shares by, the selling shareholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the ordinary shares to engage in market-making and certain other activities with respect to the ordinary shares. In addition, the anti-manipulation rules under the Exchange Act may apply to sales of the ordinary shares in the market. All of the foregoing may affect the marketability of the ordinary shares and the ability of any person or entity to engage in market-making activities with respect to the ordinary shares.

Under the registration rights agreement, we have agreed with the selling shareholders to keep the registration statement of which this prospectus constitutes a part effective for up to 180 days after the effective date of the registration statement.

[Table of Contents](#)

We have agreed, among other things, to pay all expenses of the registration of the ordinary shares, including, without limitation, SEC filing fees, expenses of compliance with state securities or “Blue Sky” laws and expenses of counsel to the selling shareholders up to \$50,000; *provided, however*, that the selling shareholders will pay all underwriting discounts and selling commissions, if any, applicable to the sale of the ordinary shares. We have agreed to indemnify the selling shareholders and certain other persons against certain liabilities in connection with the offering of the ordinary shares offered hereby, including liabilities arising under the Securities Act or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities. The selling shareholders have, subject to certain limitations, agreed to indemnify us against liabilities under the Securities Act that may arise from any written information furnished to us by the selling shareholders specifically for use in this prospectus or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities.

At any time a particular offer of the ordinary shares is made by the selling shareholders or their donees, pledgees, transferees or other successors-in-interest, a revised prospectus or prospectus supplement, if required, will be distributed. Such prospectus supplement and related post-effective amendment, if required, will be filed with the SEC to reflect the disclosure of any required additional information with respect to the distribution of the ordinary shares. We may suspend the sale of ordinary shares by the selling shareholders pursuant to this prospectus for certain periods of time for certain reasons, including if the prospectus is required to be supplemented or amended to include additional material information.

In compliance with guidelines of the Financial Industry Regulatory Authority, or FINRA, the maximum consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement.

LEGAL MATTERS

We are being represented by Wilson Sonsini Goodrich & Rosati, Professional Corporation, with respect to matters of U.S. federal securities and New York state law and certain matters of U.S. federal income tax law. The validity of the ordinary shares offered by the selling shareholders in this offering and certain other legal matters as to Cayman Islands law will be passed upon for us by Walkers. Additional legal matters may be passed on for us, or any underwriters, dealers or agents, by counsel that we will name in the applicable prospectus supplement.

Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of directors and officers, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. The registrant's amended and restated memorandum and articles of association provide for indemnification of directors and officers for actions, costs, charges, losses, damages and expenses incurred in their capacities as such, except that such indemnification does not extend to any matter in respect of any fraud or dishonesty that may attach to any of them.

In addition, the registrant has entered into separate indemnification agreements with its directors and officers, pursuant to which the registrant has agreed to indemnify its directors and officers against certain liabilities and expenses incurred by such persons in connection with claims by reason of their being such a director or officer.

(b) Financial Statement Schedules.

No financial statement schedules are provided because they are inapplicable or the requested information is shown in the consolidated financial statements of the registrant or related notes thereto included in the registrant's Annual Report on Form 10-K for the fiscal year ended June 24, 2011, filed with the SEC on August 31, 2011.

Item 17. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

- (i) to include any prospectus required by section 10(a)(3) of the Securities Act of 1933, as amended (the “Securities Act”);
- (ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the “Calculation of Registration Fee” table in the effective registration statement; and
- (iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

provided, however, that paragraphs (1)(i), (1)(ii) and (1)(iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act to any purchaser:

- (i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
- (ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

Table of Contents

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(c) The undersigned registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Exchange Act, and, where interim financial information required to be presented by Article 3 of Regulation S-X are not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.

(d) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
