## **Fabrinet Receives True Partnership Award from JDSU**

**Bangkok, Thailand/Milpitas, CA – Aug. 26, 2008** – Fabrinet, a provider of foundry services to optical component, module, and subsystem OEMs, was presented with JDSU’s “True Partnership” award at a ceremony held at the JDSU Optical Communications Supplier event last week in Milpitas, California.

Fabrinet was honored for outstanding performance in technology, quality, responsiveness, delivery and cost.

“Fabrinet has provided outstanding support for our new product introductions, incorporating our lean and operational excellence initiatives in support of on-time shipment to our customers,” said John Callahan, vice president of procurement, JDSU Optical Communications. “We are very pleased to recognize their true partnership with this award.”

“We are extremely honored by our nomination as a JDSU ‘True Partner’ as it reflects Fabrinet’s commitment to total customer satisfaction, a core value of our company,” noted Fabrinet CEO and Chairman Tom Mitchell. “This award, in addition to JDSU’s recognition of Fabrinet as a primary contract manufacturer earlier this year, acknowledges a commitment to world class manufacturing, on-time delivery and continual cost improvements that has served both companies for more than 8 years.”

### **About Fabrinet**

Fabrinet is a leading provider of foundry services to optical component, module and subsystem OEMs. Fabrinet also designs, manufactures and sells bulk optical materials and components, including glass, crystals, prisms, lenses, laser components and substrates. Fabrinet has engineering resources and facilities in Thailand, China and the United States. For more information visit: [www.fabrinet.com](http://www.fabrinet.com).
